## **PADI Scuba Review**

The Scuba Review program consists of a Confined Water Skills Review and a Knowledge Review. The Knowledge Review segment covers basic safety information you learned during your entry-level training. The confined Water Skills Review will give you the opportunity to practice basic scuba skills. There is also an optional supervised open water dive. This recommended dive offers you the opportunity to obtain an environmental orientation to a local dive site from a PADI member, as well as the comfort of supervised diving.
