## Emergency Oxygen Provider Course

Be the one ready to help a fellow diver should the need arise by becoming a PADI Emergency Oxygen Provider. The PADI Emergency Oxygen Provider Specialty course is an entry-level emergency oxygen course that also teaches you how to recognize dive illnesses treatable by emergency oxygen. Though suited for divers, this course has no prerequisites and doesn't include dives, which means it is equally applicable to those who are around divers – boat crew, nondiving buddies, lifeguards, and shore staff. You don't need any previous CPR or first aid training to take the course.

Duration: 1 Day
